MEMORANDUM FOR: Director of Logistics

THROUGH: Deputy Director for Administration
Deputy Director for Science and Technology *7/5/87*

FROM:
Director, Foreign Broadcast Information Service

SUBJECT: Printing and Photography Division Support to the Foreign
Broadcast Information Service

REFERENCE: Your memo, dtd 30 Jun 87, Same Subject

1. Thank you for referent memo outlining for the record your position on P&PD's support to FBIS, specifically in regard to JPRS. We appreciate the candid response to our concerns expressed in the memo as well as in our meeting of 24 June. We understand your position that staffing, costs, and technical difficulties prevent P&PD from meeting all of our requirements for the publication of JPRS material.

2. I would like to note that while special printing requirements, e.g. color reproduction, is of great importance to us on occasion, our greatest near-term concern is for timely printing of JPRS publications. I am aware that you and your staff recognize this concern and we appreciate P&PD's efforts in recent weeks to reduce the turnaround time for our material. I encourage these efforts to continue as earlier receipt of JPRS material is continually requested by user-analysts in the DI, DO, and throughout the Community. In this regard, it is also worth noting that when the JPRS process becomes automated this October, the number of pages to be printed will be reduced considerably which should be a further aid to quicker turnaround time.

3. In regard to the final paragraph of your memo, we have designated Chief of JPRS, to serve as the FBIS focal point officer. has already met with your representative . Your suggestion that a new, realistic MOA be developed and be subject to annual review has merit and I agree that and should have this on their agenda.
